MR. TURPIE'S SPEECH

Indiana Senator's Third Day on the Nicaragua Canal Bill.

MADE SOME BITTER REMARKS.

Legislative, Executive and Judicial Appropriation Bill Passed—Yost-Tucker Election Case in the House—Delegation of Tea Importers Given a Hearing by a Committee.

WASHINGTON, Jan. 21.—The senate yesterday proceeded with the consideration of the Nicaragua canal bill, Mr. Turpie continuing his speech in opposition. Today will be the third day of his speech. His remarks yesterday were bitterly antagonistic to the Nicaragua Canal company, the senator characterizing its methods as those of Peter Funk. Mr. Morgan will ask to have a time fixed for a final vote as soon as Mr. Turpie closes.

The legislative, executive and judicial appropriation bill, carrying approximately \$38,000,000 was passed during the day.  
Mr. Pettigrew of South Dakota severely criticised the executive authorities for concluding the Venezuelan boundary agreement which he said was a complete surrender of Venezuela to Great Britain. His resolution calling on the secretary of state for information was referred to the committee on foreign relations. Unanimous agreement was secured for taking up the bill for an international monetary conference on Tuesday next.

YOST-TUCKER CONTEST.

Mr. Yost Accorded the Privilege of Addressing the House.

WASHINGTON, Jan. 21.—The house spent the day debating the Yost-Tucker contested election from the Tenth Virginia district. Much interest was manifested in the case owing to the fact that the Republicans on the committee which reported the case were divided, four sitting with Mr. Tucker, the Democratic and sitting member, and but two with the Republican contestant, Mr. Yost. The latter is a member-elect of the next house and Mr. Tucker is one of the most prominent and popular Democrats on the floor. Mr. Tucker had 892 plurality on the face of the returns but several thousand imperfect ballots were rejected under the then existing Walton law of Virginia, which the contestant claimed, if counted, would have reversed the result. Mr. Yost himself was accorded the privilege of addressing the house in his own behalf.

TEA IMPORTERS.

Delegation Given a Hearing by the Ways and Means Committee.

WASHINGTON, Jan. 21.—The ways and means committee of the house gave a hearing yesterday to a delegation of tea importers representing the importers of all the large cities. Thomas A. Phelan, Samuel Lee and W. P. Roome of New York constituted the delegation. They asked that the law be so amended as to give the inspectors and arbitrators standards to guide them, so that they will admit and reject goods uniformly. They would have a permanent board of merchants or experts to determine the lowest grade of tea fit for use before the seasons begin and furnish importers with samples to forward their correspondents. Importers might appear to the board when their goods were excluded.

Survey for a Water Route.

WASHINGTON, Jan. 21.—The house committee on rivers and harbors yesterday favorably reported the bill for a survey for a water route from Galveston to Houston in Texas. The plans contemplate a channel from the jetties in Galveston harbor through the ship channel and Buffalo bayou 26 feet deep and 100 wide, and a harbor at Houston of the same depth and 500 feet wide.

For the Mining Industry.

WASHINGTON, Jan. 21.—Senator Perkins of California yesterday introduced a bill which is intended to pave the way to the establishment of a bureau or a department of the government to be devoted to the mining industry.

Estimate Submitted.

WASHINGTON, Jan. 21.—The secretary of the treasury yesterday submitted an

estimate of \$20,000 to continue the services of the commission to treat with the Crow, Flathead and other Indians.

DEBS NOT RECOGNIZED.

Colorado Miners Prefer to Follow the Advice of President Boyce.

LEADVILLE, Col., Jan. 21.—The mine owners, it is understood, will pay no attention whatever to the strikers' request for arbitration of the questions at issue between them. E. V. Debs considers that the strikers made a mistake in rejecting the terms offered by the mine owners. The strikers preferred to follow the advice of President Boyce of the Western Federation of Miners rather than that of Debs.

Ex-Bank President Falls.

HOLLIDAYSBURG, Pa., Jan. 21.—The closing of the First National bank of Hollidaysburg, the Martinsburg Deposit bank and the Williamsburg Deposit bank on Dec. 14, last, precipitated the failure yesterday of Colonel William Jack, who was the president of these three institutions. The judgment creditors are William Howard of Pittsburgh, the First National bank and the Martinsburg bank.

John Hoch Executed.

AUBURN, N. Y., Jan. 21.—John Hoch was executed by electricity in the state prison here yesterday. Hoch, in July, 1896, murdered Minnie Ingersoll, 16 years old, at Chapel hill, near Lowell.

MURDERER FRANK BUTLER.

Police Believe He Has Been Placed in Irons on the Swan Hulda.

SAN FRANCISCO, Jan. 21.—The steamer Australia, from Honolulu, yesterday brought some definite news regarding the ship Swan Hulda, and her passenger, Frank Butler, the Australian murderer. Word had been brought by a previous steamer that the Hawaii steamer Taupo, had spoken to the Swan Hulda at sea and had given Captain Frazer of the Swan Hulda, papers containing accounts of Butler's crimes. Yesterday's steamer reports that the Taupo spoke the Swan Hulda, but gave no papers. The Taupo signalled: "Frank Butler, alias Captain Lee Walter, murderer, is on board."  
The Swan Hulda's captain responded: "All right, I understand."  
The police believe this indicates Butler is now in irons on the Swan Hulda.

NO MILITARY ESCORT.

Remains of Minister Willis Now Enroute to Kentucky For Burial.

SAN FRANCISCO, Jan. 21.—The remains of Albert Shelby Willis, late United States minister to Hawaii, were brought here by the steamer Australia yesterday, and were last evening taken to Louisville, Ky., for interment. Mrs. Willis and her son accompanied the remains. No military escort was sent from Honolulu by the Hawaiian government by the special request of Mrs. Willis, who desired to make the journey unattended. The mourners were met upon the arrival of the steamer here by military representatives of Governor Budd and of General Forsythe, U. S. A., commanding the department of California.

TRIP TO MEXICO.

Cincinnati Business Men to Establish Agencies in Our Neighboring Republic.

CINCINNATI, Jan. 21.—Secretary J. L. Shaw of the Cincinnati board of trade and transportation, and a number of Cincinnati business men, have left on a trip to the republic of Mexico for the purpose of establishing closer commercial relations between this city and the rapidly developing republic lying to the south of us. The trip will last 35 days, during which time all the principal cities and towns of Mexico will be visited and agencies for the sale of Cincinnati manufactures will be established wherever possible and placed in charge of experienced and reliable agents.

SEVERELY BURNED.

Amputation of a Man's Arm Necessary to Save Him.

MIDDLETOWN, O., Jan. 21.—Fire broke out in the Berry block yesterday, and before it was extinguished destroyed the entire top floor. A large stock of groceries stored in the building by Frank Burke and Manning Bros. was badly damaged by smoke and water. Gus Lates, a clerk sleeping in the building, was so badly burned that amputation of the right arm will be necessary. Loss on building is fully covered by insurance, but stock is a total loss.

Favors Recognizing the Cubans.

SPRINGFIELD, Ill., Jan. 21.—After the result of the senatorial vote had been announced a committee of members from the house and senate escorted Senator-elect Mason to the hall and he made a short address. In the course of his remarks he declared himself emphatically in favor of the recognition of the belligerency of the Cuban insurgents. This was greeted with tremendous applause. A resolution was adopted endorsing Senator Cullom for position in President McKinley's cabinet.

City Contractor Indicted.

ROCK ISLAND, Ill., Jan. 21.—The Rock Island county grand jury has returned an indictment against M. Schnell, a contractor, and others interested in the construction of a drain in this city for conspiracy to defraud. It is alleged that cheap materials were substituted for those specified in the contract. The jury censured the mayor and members of the council for negligence in guarding public interest while work was in progress.

Demand for Corn Cob Pipes.

RICHMOND, Ky., Jan. 21.—Robert Potts has added a cob pipe factory to his flourishing mills at White's station in this county and is finding a ready demand for his product.

Stabbed a Schoolmate.

LITCHFIELD, Ill., Jan. 21.—Ed Smith and James Carper, aged 10 and 15 years, respectively, had an altercation during the noon recess at the First ward school-house, when the older boy stabbed the younger in the back with a knife, inflicting a dangerous wound.

MUTINEERS ABOARD

Four Colored Men Go to Sea Against Their Will.

REFUSED TO HOIST THE ANCHOR.

They Threatened the Captain With Violence, but He Was Determined and Took Them Along—Five Longshoremen Will Have to Man the Vessel—Said to Be Not Seaworthy.

NEW YORK, Jan. 21.—The Nova Scotia brig Electric Light, which put in here a week ago with four feet of water in the hold, sailed yesterday on her way to Rio Grande Da Sol with a crew of four mutineers and five longshoremen, commanded by a new captain and mate. The mutineers plainly threatened the captain with violence if he persisted in leaving the port under the circumstances. The trouble arose from the alleged condition of the ship, which is deeply laden with a general cargo. The men who brought her here, four negro sailors from the West Indies, say she is not seaworthy, and they demanded a hearing before the British consul.

Her captain, Cronin, and mate abandoned her when she cast anchor off Stapleton, and were succeeded Tuesday by one Edwards. Yesterday the tug Guiding Star went alongside the brig with the longshoremen and Edwards ordered the negroes to hoist anchor and make ready to sail. They refused to move, reiterating their demand that they be put ashore with their damage. The captain declined to do so and ordered the longshoremen to proceed with the work. The raised the anchor, the tug took the brig in tow, and proceeded on to sea, the mutineers meanwhile sitting on their bags near the forecastle.

WATTERSON AT A BANQUET.

Kentucky Editor the Principal Speaker at a New York Assembly.

NEW YORK, Jan. 21.—The 24th annual banquet of the New York board of trade and transportation was held in the banquet hall of the Waldorf hotel last night. Senator John M. Thurston, who was to have responded to the toast, "The West," was detained in Washington. William H. Parsons acted as toastmaster. The principal speaker of the evening was Henry Watterson, who responded to the toast, "When Uncle Sam Was Young."

Gen. Simon B. Buckner responded to the toast "Patriotism, Country and Party." Lieutenant Governor Woodruff to the toast "The Prospective Benefits to Trade and Transportation, Incident to the Creation of the Greater New York." Postmaster Dayton to the toast "The Postal Service." Rev. Madison C. Peters to the toast "Immigration." F. B. Thurber moved that the assembly express by rising its sentiment in favor of the arbitration treaty just promulgated between the United States and Great Britain. All rose and cheered.

LOUISVILLE BANK FAILURE.

Chancery Commission Ordered to Wind Up the Affairs of the Institution.

LOUISVILLE, Jan. 21.—Judge Toney yesterday instructed Deputy Chancery Commissioner Taylor to wind up the affairs of the German Safety Vault and Trust company. The petition states that Mr. Emmer owns 15 shares of stock, while Mr. Wille owns five shares. The authorized capital stock is \$300,000, although plaintiffs charge that it is not known how much of this capital stock has been paid up. The petition also states that the company has purchased the property they now occupy for \$60,500, and that \$15,000 only of this debt has been paid off. President McKnight was seen and asked for a statement, but he declined to be interviewed.

DUEL NOT LIKELY.

Consul General Lee Says He Had Enough Fighting in the War.

HAVANA, Jan. 21.—General Lee, United States consul general, alluded

Many a nervous woman sits up all the night and tries to read herself sleepy. Nine to one she doesn't accomplish her purpose. Nine to one, she gets more and more nervous. The slightest sound strikes terror to her heart. The dark corners of the room contain a thousand frights. She doesn't know what she is afraid of, but she is afraid, actually, honestly, nervously, abjectly afraid. Healthy women are not cowards. If a woman is nervous and sleepless and afraid of the rustle of her own dress, there is something the matter with her. The most delicate nerves in her body are set on edge by weakness or disease. Nine-tenths of the nervousness, irritability and bad temper in women is merely a symptom of ill health—ill health of the delicate and sensitive organism that makes her a woman. If she is overworked, or over-worried, the effect will show itself there first. There is no use taking harmful and deadly narcotics for nervousness and sleeplessness. It will leave the body in a worse condition than it was before. The way to effect a cure is to cure the cause. Dr. Pierce's Favorite Prescription will do it. It has cured tens of thousands of cases of female weakness and nervousness. It is a most wonderful invigorating and nerve food. It brings sound healthy sleep and restores the glow and bloom of health. It is the only medicine now before the public for woman's peculiar ailments, adapted to her delicate organization by a regularly graduated physician—an experienced and skilled specialist in these maladies. It cannot do harm in any condition of the system. Its sales exceed the combined sales of all other medicines for women.

The story of its discovery and its wonderful success is told in part of Doctor Pierce's great thousand page book, Common Sense Medical Adviser, which will be sent free on receipt of 21 one-cent stamps to pay for mailing only. World's Dispensary Medical Association, No. 65

yesterday to sensational reports circulated in the United States that a duel was probable between Congressman Money and himself on account of statements made by the latter of conversation he had with General Lee while here. The consul general says that such a story is ridiculous.  
"Money and I both had a bellyful of fight in the last war," the general added. At the time of Mr. Money's departure General Lee expressed his pleasure that he had personally visited Cuba and talked freely with him, but he says that he sent no message to Secretary Olney.

HARVARD LEFT OUT.

Yale Will Go Ahead and Make Athletic Arrangements.

NEW HAVEN, Conn., Jan. 21.—The announcement is made that Yale will go ahead regardless of Harvard and make what athletic arrangements she can for the coming year with other colleges. The chief difficulty in such arrangements is the boating matter and this is regarded as so important that a conference of Yale graduates is to be held to outline a boating policy of Yale with Harvard left out. Upon the boating policy, if adopted and ratified by the undergraduates, athletic plans in other branches somewhat depend.

Nease and Farler Bound Over.

JACKSON, Ky., Jan. 21.—Jacob Nease and Daniel Farler, charged with murdering Deputy Marshal Bird, were held over to the United States circuit court by Commissioner Marcum without bail. They were taken to Louisville today.

Weather.

Indiana and Illinois—Generally fair; slightly colder in northern portion. Ohio—Rain or snow, followed by clearing weather; slightly colder.

Died From Her Burns.

HAMILTON, O., Jan. 21.—Christina Upfman, who was desperately burned by a gasoline explosion Tuesday, died at Mercy hospital yesterday. Her condition remained unchanged until that time when she suddenly passed away. She undoubtedly inhaled the flames.

To Give Unemployed Work.

CRAWFORDSVILLE, Ind., Jan. 21.—The city council of Crawfordsville has voted to put in a system of sanitary sewerage, and work will be begun at once. This improvement is undertaken at the present time not only because it is badly needed, but in order to give employment to a number of laborers who would otherwise be dependent on the city for support.

Factory Increasing Facilities.

ELWOOD, Ind., Jan. 21.—The American tinplate factory continues to enlarge, and now has more employees than ever before. Thirty-one tinning stacks are in operation and more are building. Another sorting room is being occupied, and the output of the plant is being increased in every way possible.

Two Strangers Arrested.

MADISON, Ind., Jan. 21.—Sheriff Kohl and Marshal Barnes yesterday arrested and imprisoned two strangers, who are accused of obtaining money under false pretenses from several persons. They came here on a boat and registered as M. McGraw and Edward Ryan.

Preparing for Commandery Meeting.

ANDERSON, Ind., Jan. 21.—The Anderson commandery, Knights Templars, has appointed a committee to begin preparations for the meeting here of the grand commandery in April next. This is the home of the eminent grand commander.

Date For Federation Meeting.

MARION, Ind., Jan. 21.—Aug. 17, 18 and 19 has been selected as the date of the annual convention of the State Federation of Labor, which is to meet in this city. The date was selected last night by the local trades council.

Favor Compulsory Education.

PORTLAND, Ind., Jan. 21.—The Jay County Farmers' Institute has adjourned after electing officers. The institute passed resolutions favoring the passage of a compulsory education law.

Removal of a Newspaper Plant.

ANDERSON, Ind., Jan. 21.—The Telegram newspaper plant has been sold by J. P. H. Castlerline to W. P. Campbell and it will be removed to Albany.

Notes of the State.

A gray wolf, weighing 35 pounds, was killed by hunters near Lagrange, Ind. Diphtheria, which has been raging in Lake county, Ind., has been finally gotten under control.

Harriet Mauk of Princeton, Ind., aged 4 years, was fatally burned by her clothing catching fire.

A barn belonging to Mrs. Samantha Vincent near Portland, Ind., burned, together with a large amount of corn, and oats.

Mrs. Buckingham of Brookville, Ind., wife of Dr. George B. Buckingham, is dead after an illness covering several months.

Pupils of the Greenacres (Ind.) public schools have organized an anticigarette league and are fighting what they term the "cigarette epidemic."

Edward Pauley, father of ex-Sheriff Pauley of Hancock county, Ind., was found dead in his barn at Greensfield. He was 55 years of age. Heart disease.

MCKINLEY VISITORS.

Busy Day For the President-Elect—Mr. Dawes His Guest.

CANTON, O., Jan. 21.—Hon. Charles G. Dawes of Evanston, Ill., arrived in Canton last evening and he will be the guest of President-elect McKinley possibly for a few days. During the evening Judge William R. Day, who has been mentioned as the possible attorney general, dropped in and had a long, quiet talk with the president-elect. James B. Dunn of the executive committee dropped in to see Major McKinley. Senators Lodge and Hoar are expected in Canton tomorrow to confer with Major McKinley. General Joseph S. Kootz of Toledo, past national commander of the G. A. R., accompanied by Colonel L. Frantz of the same city, were in town last evening. They were granted an audience by Major McKinley. The gentlemen would not give out for publication the object of their visit, but it is currently stated that they are here to look after the pension commissioner appointments.

SPANISH PREMIER SURPRISED.

Fully Expected Secretary Olney Would Finish the Negotiations.

LONDON, Jan. 21.—A correspondent at Paris of The Daily News says: During the negotiations with the United States last week Senor Canovas, the Spanish premier, was surprised and dismayed to receive an intimation from Washington that Secretary Olney would have no time to settle the Cuban question and that he would leave President McKinley's hands free to deal with it. Two days later Senor Canovas issued an official denial that negotiations were proceeding. It is a great blow to Senor Canovas, who has no confidence in General Weyler's ability to suppress the rebellion. He is credited with an intention to resign if General Weyler has not given a death blow to the revolution at the beginning of the rainy season.

TO SUCCEED PEPPER.

William A. Harris Will Represent Kansas in the Senate.

TOPEKA, Jan. 21.—William A. Harris of Linwood was nominated for United States senator in the Populist caucus last night on the 35th ballot. When the caucus met his vote was larger than the night before, and on each ballot his strength gained. On the 34th ballot he had 54 votes, one less than enough, and on the next ballot he secured 57 votes. Half a dozen men rose to make it unanimous, and the chairman announced him the choice of the caucus. The 35th ballot stood: Harris, 57; King, 39; Bredenthal, 5; Little, 5; Madden, 2; Martin, 1. Senator Pepper dropped out a few ballots before.

GENERAL STATE NEWS.

Mrs. Mary Hoover Thinks She Has Had a Revelation.

HUNTINGTON, Ind., Jan. 21.—Mrs. Mary Hoover of Mount Etna, this county, has created a sensation in the streets here. She claims to have received a revelation from God that she should begin praying at once, and keep it up until God told her to stop. She commenced at once, and at last accounts was still at it. She entered stores, offices and residences, and at each place she insisted on praying. One merchant, A. R. Large, fled from her, but the woman chased him into his home, and when she had him cornered, she prayed in front of him for fully an hour. People think she has suddenly gone insane upon the subject of religion.

MISSIONARY TO INDIA.

Young Lady Goes From the Northern Indiana Methodist Conference.

HAERSTOWN, Ind., Jan. 21.—Miss Emma Lamb, who has been selected by the Woman's Foreign Missionary society as its representative in India from the Northern Indiana M. E. conference, has received a cablegram from Calcutta desiring her services. She will start for Vancouver in a few days and will sail from that port. Miss Lamb will have charge of the society's English school in Calcutta. She is well known in Denver and other western cities as an accomplished teacher of elocution. She has wealth, culture and natural ability, and bears the unique distinction of being the only missionary ever sent out by the society of the Northern Indiana M. E. conference.

MRS. SHIRK'S WILL.

She Leaves Her Vast Belongings to Her Sons and Daughter.

PERU, Ind., Jan. 21.—The will of Mrs. Mary Shirk, widow of Elbert H. Shirk, who was engaged in the banking, mercantile and real estate business, has been probated, and the estate, one of the most important in Indiana, now valued at not less than \$12,000,000, is divided among the children—Mrs. R. A. Edwards and Milton Shirk of Peru, and E. W. Shirk of Chicago—who are left in full control without reserve. Three thousand dollars are left to the Baptist church of Peru and \$5,000 to the Theological college at Franklin, Ind.

## Dr. Miles' Nervine Triumphs.

Excessive Nervousness from Childhood.  
La Grippe Brings on Heart Weakness.

REV. B. P. SEAREY, pastor M. E. church, Buchanan, Ga. writes Dec. 10, 1895: "In childhood I was afflicted with excessive nervousness, which, almost developed into St. Vitus dance. I partially recovered, but at college it gradually grew worse. Close study aggravated the trouble; any unusual exertion caused trembling all over. In 1891 I had a severe attack of La Grippe which brought on heart weakness. I had been almost constantly under treatment for nervous troubles, and changed climates frequently without avail. Last February I began taking Dr. Miles' Restorative Nervine and Nerve and Liver Pills and since then I have been studying more and working harder than for years and the good effects that have resulted seem to be permanent." Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. The senate passed a bill yesterday which provides that the killing of quail in the state shall cease for a period of two years.

SENATOR J. C. PRITCHARD of North Carolina, was re-elected to the United States senate yesterday. Pritchard is a republican but received the votes of eighteen populists on the final ballot.

The charge of Capt. Ritter against some of the Indianapolis police force is causing some anxiety among the wearers of the blue coats in the capital city. If wine rooms exist as he charges, and that too, with the knowledge of the police, there is some reason for the anxiety.

There should be no quibbling over a legislative apportionment bill. The matter should be carefully and thoughtfully considered by the proper committee and the result of their deliberations reported to both houses at an early day. The people want the very best apportionment law enacted that is possible.

The best summary of the most important events of the year 1896 that we have yet seen is that prepared by Hazlitt Alva Cappy and published in the January number of the Twentieth Century Monthly. Mr. Cappy is a native of Indiana and has many friends in this part of the state who will read this summary with much interest and profit.

The career of John Sherman, who will be President McKinley's secretary of state, proves conclusively that a man need not be President in order to be a maker of history of the highest importance. When March 4 comes Sherman will have been in public life continuously for forty-two years. He has been identified with all the great movements of the government within that period. He has never lacked ability to deal with hard problems.

There has not for some time been an administration confronted at its outset with so many serious problems as will meet the McKinley administration. Sufficient revenue must be raised to meet the expenses of the government. Our money system must be placed upon a safe and permanent basis. Our foreign affairs have been in a tangle all through the present administration, until Secretary Olney took charge of the state department. He has succeeded in unraveling some of the tangle and his work has been the redeeming feature in the foreign policy of the administration. But many of these questions, and some of them the most delicate will be left

## INDIANA'S RESOURCES.

Of the natural wealth of Indiana not many of us have any just conception. How many of us, for instance, know that within its borders lie more than 7,000 square miles of workable coal fields, that the annual product of its stone quarries amounts to 22 million cubic feet, much of which, as the Bedford stone, is of the finest quality for building purposes, and is shipped into other states, or that its supply of crude petroleum last year from its oil fields reached 4,700,000 barrels, or that its "gas belt" embraces 2,500 square miles? Its supply of clays suitable for almost every kind of clay manufacture is practically unlimited. The state geologist says that during 1896 over two thousand inquiries from almost every state in the Union were addressed to the natural resources of this commonwealth. Truly, Indiana is a great state! —Baptist Outlook.

PRESIDENT FISHER has a sensible communication in the Indianapolis Journal this morning relative to the discrimination against college graduates in the granting of life certificates to teach. There is no reason why the state normal graduates should be given a preference over the college graduates. A college diploma granted after four to six years of study in a reputable college should count for more than a certificate of graduation from the state Normal granted after two or three years of work there. More scholarship is what the schools of the state need, therefore the law should not discriminate against college men. The proposed law now before the legislature does so discriminate and therefore should not pass.

STUYVESANT FISH, president of the Illinois Central railroad is quoted as saying that the country was standing on pivot, and that was needed was for some man to start the investors and then the movement would become general. Continuing, he said: "There never was a time, I think, in the history of this country when everything was as ripe as at present for a long leap into business activity. Every factory and every enterprise which gives employment has rested and is now ready, year, anxious to begin anew another race, another effort. Thus it seems to me that when the great wheels of commercial activity have once more started there is no impediment no hindrance in the path of continual progress."

Steel and Iron Roofers Meet. CINCINNATI, Jan. 21.—The National Association of Corrugated Steel and Iron Roofers held their annual meeting here yesterday behind closed doors. Seventeen firms were represented by 25 delegates. The business related to maintaining perfect uniformity in rules of measurement and securing fairness in freight rates.

Iron Mountain Cracked. An immense fissure in the earth has made its appearance on the top of Iron Mountain, between North Carolina and Tennessee, on the Bakersville road. This opening is 6 to 12 feet wide and runs along on the summit for the entire length of the mountain, which is several miles. It is supposed to have been caused by the recent rains. —St. Louis Globe Democrat.

## BAD FOR SPORTSMEN

Killing of Quail and Grouse Prohibited For Two Years.

HALF DAY SESSIONS OF SOLONS.

Couple of Bills Ordered Engrossed in the House—Mr. Fairbank's Address of Acceptance—Senate Passed Five Bills and Killed Senator Holler's Measure For Eligibility of Township Officers.

INDIANAPOLIS, Jan. 21.—Only half-day sessions were held by the two branches of the legislature Wednesday, and while the house devoted its time to the introduction of new bills and the discussion of a couple of measures on second reading, the senate passed the following bills and killed the bill of Senator Holler making township trustees and assessors eligible to re-election: Senator Bobilya's bill prohibiting the killing of quail and grouse for two years. The measure absolutely prohibits the killing of these birds by any method during the next two years.

Senator Hogate's bill declaring it a felony for any person to assist an escaped convict in eluding the officers of law.

Senator Hogate's bill providing for the deposition to prove wills in the absence of attesting witnesses.

Senator Houghton's bill bringing the step relation within the pale of the incest law.

Senator Hubbell's bill providing that street and suburban railway corporations may acquire property for street railroad purposes.

The house passed Representative Wallrath's resolution sustaining the Chickamunga commission in its controversy with the national park commissioners over the position of the Ninth Indiana on Sandgrass hill. A couple of hours was then devoted to the reading of new bills. Among these was one by Mr. Nicholson providing for legal primary elections in cities. The next order taken up was that of bills on second reading and an hour was spent in discussing Mr. Remington's bill making it unlawful for a purchaser of wheat to use any but the standard half bushel measure in testing and grading the grain. After a couple of minor amendments it was ordered engrossed. The bill of Mr. Canada providing that the road tax may be worked out from April 1 to Oct. 31 met with no opposition and was ordered engrossed. The house then adjourned for the joint session and the members devoted the afternoon to committee work.

### SENATORIAL VOTE.

Mr. Fairbanks Election Verified in Joint Session—Applause For His Address.

INDIANAPOLIS, Jan. 21.—All of the formalities necessary to the election of a United States senator were completed Wednesday in a joint session of the general assembly, when the separate vote of the two branches was canvassed and the result declared. The house vote was: Fairbanks 52, Voorhees 42, Templeton 18; senate, Fairbanks 38, Voorhees 18, Templeton 11; total, 149. Mr. Fairbanks was escorted to the speaker's desk, his appearance being greeted with applause. His brief address was generously applauded by men of all parties, and at its conclusion an impromptu reception was held in the cloakroom.

Mr. Fairbanks' Address of Acceptance.

INDIANAPOLIS, Jan. 21.—In accepting his election to the United States senate Mr. Fairbanks spoke as follows to the joint session of the general assembly: Mr. President and Gentlemen of the Senate and House of Representatives of Indiana:

I am not here to indulge in partisan speech, for such would be inappropriate in this presence, but to make acknowledgment of the high honor you have conferred upon me. From an overflowing heart I return to my profoundest gratitude. No honor lies beyond the trustfulness, the confidence of one's countrymen. I shall accept the commission of the state with a full appreciation of the great responsibility which its acceptance imposes and with a thorough consciousness of my own inadequacy. I shall enter the senate with but one purpose, and that purpose is to serve the interests of my countrymen, regardless of condition, to the best of my humble ability. My hope is to be able to aid in some small degree in the enactment of such laws as shall promote that sense of stability and security in our affairs which is essential to our progress and development. An era of prosperity to our country awaits us, and nothing but vicious laws and false policies can avert or retard it.

I favor upholding the dignity and honor of the government against all comers at any cost; yet I am opposed to any policy which shall tend to involve us in unnecessary international entanglements and possible war. Our people want peace for it is the mother of prosperity. One of the hopeful, reassuring incidents of the hour is the progress made toward the institution of a high tribunal of arbitration for the settlement of disputes between the great Anglo-Saxon powers. Such a step is in keeping with the demands of our highest and best interests. It is responsive to the imperative requirements of Christianity. The strongest government can well lead the way. Our isolation is such, our resources are so limited, the virtue and patriotism of our people are so acknowledged that we have, as Bismarck said of the new German empire, no power to fear except the power of Almighty God. We need no frequent display of our willingness for war to convince the world of our prowess. I believe in commercial conquests—those conquests which shall bring the trophies of peace to the homes of our countrymen of low and high degree.

I enter the senate as a Republican, a firm believer in the wisdom and soundness of Republican policies. I also believe with President Hayes that "he serves his party best who serves his country best." Upon purely partisan questions I shall not hope for the approval of my Democratic friends, but with respect to the great majority of questions which are non-political I trust I may be able to win some share of their approbation.

For the distinguished occupant of the chair to which you have called me, I have nothing but sentiments of personal esteem and good will. Our differences are political, not personal; and I devoutly wish that health, happiness and many years may attend him.

Again permit me to thank you, and through you, to thank the great, generous constituencies which you represent, for this high honor.

### Penalty For Killing Quail.

INDIANAPOLIS, Jan. 21.—The senate has passed a bill prohibiting the shooting of quail for two years, with \$1 penalty for each bird killed.

## A NATIONAL SAUCE.

SOMETHING ABOUT TOMATO CATCH-UP, SO POPULAR IN THIS COUNTRY.

How It Is Made In One of New Jersey's Big Factories—Deep Secrets of the Business—A Bit of History About a Famous English Sauce.

New Jersey is the home of the tomato, and especially of the national sauce of America—tomato catchup. Here the tomato plant attains its highest state of perfection and produces a fruit so luscious, red and round as to justify the old English name of "love apple," to which the French still cling, calling it pomme d'amour. The tomato plant being a native of America, and the name coming from the Indian word "tumal," it is fitting that tomato catchup should be on every table in the land.

Widespread acres are devoted in Jersey exclusively to the culture of tomatoes, the choicest of which are reserved for tomato catchup. There are large factories in which catchup making is the chief industry. A random visit to one of these factories is enough to convince the owner of the most jaded palate that there are flavors yet worth tasting. Tomatoes are put up in nearly half a hundred inconceivable ways, but chiefly in catchup. The cooking is done on scientific principles. The original recipe for the catchup produced, unlike that of a certain famous English sauce, probably came "from an old woman in the country," but the product has been so changed and improved by experiment that the old woman herself would be forced to admit that she had not attained the highest rank in her art.

The best efforts of at least two skilled men in one of the factories have been devoted to improving the flavor of the catchup, but the result of their labors can be obtained by the general public only in the finished product. Their processes are carefully guarded secrets, kept most carefully locked up in their breasts. If both of them should die suddenly, the world would miss a distinctive product of the culinary art. The superintendent of the factory is one of these men. He probably knows as much about preserving fruits and making sauces as any man in the United States—and maybe more than any other man. He tells an interesting story about the famous English sauce before mentioned.

The makers of the sauce did an enormous business and kept their recipe a secret. Thieves tried to steal it, and other manufacturers imitated the flavor, the bottles, the labels and so forth, but nobody succeeded in making sauce that was just like it. The rival manufacturers succeeded in getting decisions in their favor allowing them to use the same name and even to have similar coats-of-arms and labels, but the name of the original makers was a guarantee of the peculiar quality of their sauce.

One day the foreman of the big works had a quarrel with the proprietors and withdrew. He began making and placing on the market a sauce so nearly like the original that connoisseurs could not tell them apart. The foreman kept this up awhile and then he suddenly retired from the business, closed his works, stopped making sauce and lived in luxury thereafter. Nobody has any positive evidence as to the manner in which he acquired his wealth so suddenly, but some people can guess.

"The secret of the tomato catchup made here is just as carefully guarded as that," said the superintendent. "We say we make catchup without the use of chemicals or coloring matter, and we do it. Salicylic acid is the standard chemical to prevent fermentation. If you can get just the right amount of that, perhaps it is not harmful, but the trouble is you have to use just a little too much to make sure that fermentation will not set in, and that surplus amount of salicylic acid hinders the natural fermentation of food in the stomach. It is as plain as that two and two make four."

"Then there is another thing—the coloring matter. These highly colored catchups that look so bright are really not as pleasing to the eye as catchup that retains the natural color of the tomato, and they certainly are not so healthful, for they contain carmine. Any one who knows what carmine is made of doesn't care to eat it."

So much for the maker's estimate of his own product. The factory is certainly neat and aromatic. A whiff of the air there after dinner is almost as good as a dash of tomato catchup. It requires 2,000 tons of tomatoes daily to supply the demand for the various preserves that are put up here. These are furnished largely by the farm in connection with the factory and partly by surrounding gardeners. The finest, reddest fruit is reserved for the catchup making. It must be unbruised. This is placed in a scalding machine, where, with two separate cold washings and a hot plunge bath, the skin is loosened. It then goes into a peculiar machine called the "cyclone," which separates the skins and seeds from the pulp. Big porcelain lined pumps take the pulp to a "sifter," where the coarser fibers are taken out, and nothing but the blood red fluid percolates through to be made into catchup. Even this refining process is not enough, for the water is separated from it, and the clear pulp is then placed in large, hermetically sealed cans, where it is cooked without foreign substances of any kind.

These cans are taken down throughout the year, as occasion demands, and the real process of making catchup from the essence of the tomato begins. The pulp goes through more sifting machines, that make it smooth, tin lined kettles, where it is boiled and seasoned. Country girls with fresh Jersey complexions stir it up meanwhile, and the spices—what they are only two men know—are added. It is then tomato catchup, ready for the bottles, buckets and barrels that await it, for catchup is made by the barrel and shipped by the ton.—New York Tribune.

RAILROAD RUMBLINGS

J. C. Coppin, of the E & T. H., was a  
visitor here to-day.

Yesterday was a terribly disagreeable  
day on the train men.

G. M. Warder, of the the Kankakee  
Line, was a business visitor in the city  
today.

Conductor Tom Kelso's caboose was  
demolished in the freight wreck at  
Mitchell yesterday.

Col. J. M. Ryan, of the Continental  
Line, after a business visit to the Blish  
brothers, returned last night to Louis-  
ville.

H. A. Truedley, who has been divi-  
sion freight agent of the B. & O. S. W. at  
Vincennes, Ind., has assumed duties of  
special agent of the company, a new  
position. His special work will be the  
development of industries on the line  
of the road.

B. & O. S. W. passenger train No. 1  
in charge of conductor Dave Shaner and  
engineer Frank Evans from Milan,  
Ind., to Seymour, a distance of forty-five  
miles in fifty-six minutes, which in-  
cluded a stop of fourteen minutes at  
North Vernon.—Washington Gazette.

One of the new Class I engines on  
Pennsylvania on Saturday hauled a  
train of eight Pullman cars from New-  
ton Hamilton to Harrisburg, eighty  
three miles, in eighty minutes. On one  
stretch thirteen and one-tenth miles  
were covered in eleven minutes and  
one mile was made at a speed of eighty-  
two miles an hour. The Pennsylvania  
people claim that this run has never  
been beaten.

Captain W. W. Peabody, Vice Presi-  
dent and General Manager of the B. &  
O. S. W., traveled last year, in his pri-  
vate car, the Ohio, just 54,419 miles.

The record was kept by C. A. Tonay,  
who has been in the Captain's private  
office for eleven years, and who accom-  
panies him on his travels. He keeps a  
daily record of the car movements, and  
can show at just what point on the road  
the Captain was at any time during the  
past ten years while out on his car. In  
1889 the car, with the Captain, traveled  
59,850 miles; in 1890, 43,940 miles;  
in 1891, 56,682 miles; in 1894, 60,311 miles;  
and 1895, 53,230 miles. This record is  
hardly equalled by any railroad man in  
the west, and is equal to going twice  
around the world every year, and half  
way back again.

Your Boy Won't Live a Month.  
So Mr. Gilman Brown, of 34 Mill St.  
South Gardner, Mass., was told by the  
doctors. His son had lung trouble, fol-  
lowing Typho Malaria, and he spent  
three hundred and twenty-five dollars  
with doctors, who finally gave him up,  
saying: "Your boy won't live a month."

He tried Dr. King's New Discovery and  
a few bottles restored him to health and  
enabled him to go to work a perfectly  
well man. He says he owes his present  
good health to use of Dr. King's New  
Discovery, and knows it to be the best  
in the world lung trouble. Trial bot-  
tles free at W. F. Peters' drug store.

Hazzard, has resigned and is filling the  
same position in Ed. Brown's grocery  
and Capt. William Harrison has taken  
the latter's place at Hazzard's. They  
are both good salesmen.

The progressive ladies of Westfield  
Ind., issued a "Woman's Edition" of the  
Westfield News, bearing date of April  
3, 1896. The paper is filled with matter  
of interest to women, and we notice the  
following from a correspondent, which  
the editors printed, realizing that it  
treats upon a matter of vital importance  
to their sex: "The best remedy for  
croup, colds and bronchitis that I have  
been able to find is Chamberlain's Cough  
Remedy. For family use it has no equal.  
I gladly recommend it." 25 and 50  
cent bottles for sale by C. W. Milhouse.

Not Well? Well Get Well!  
The results attained right here at  
home have been marvelous. Hundreds  
of your neighbors who have used  
Wright's Celery Capsules are now well.  
They cure Kidney, Liver and Stomach  
trouble, Rheumatism, Constipation and  
Sick Headaches. Why pay \$1.00 every  
two weeks for a bottle of medicine  
when you can get treatment at 1 cent a  
day. Wright's Celery Capsules give  
100 days' treatment for \$1.00. Easy to  
take, no bad taste, do not gripe, backed  
by a bank, to cure you, or refund your  
money. Sold by A. J. Pellens, drug

REUNITED.

John T. Deal Makes Peace With His Wife.

It will be remembered that only a  
few weeks ago word reached here that  
John T. Deal, of Clearspring, had beaten  
his wife in a most cruel manner. For  
several days it was feared that Mrs.  
Deal could not recover from her in-  
juries. She was taken to the home of  
her brother, Linc Conner, at Kurtz,  
where everything possible was done for  
her recovery. After several days she  
got better and for the past week has  
been able to get about more or less as  
usual.

In the meantime Deal was ar-  
rested and placed under bond of \$2000  
for his appearance in circuit court to  
answer the charges against him. The  
charges were serious which if proved he  
he knew would likely go rather hard  
with him.

It is said that recently he has writ-  
ten several letters to his wife at Kurtz,  
who in the meantime had filed suit for  
divorce. Yesterday morning, however,  
when Mr. Conner was away from home,  
Deal drove up and took his wife to a  
buggy and drove over to Brownstown  
and in the afternoon they boarded the  
train, passing through here at 4 o'clock  
on their way to some peaceful spot  
where they can talk over their troubles  
of the past and meditate upon their  
happiness of the future.

That they should live together again  
is a source of much surprise to most  
every one acquainted with their  
troubles.

Free Pills.  
Send your address to H. E. Bucklin  
& Co., Chicago, and get a free sample  
box of Dr. King's New Life Pills. A  
trial will convince you of their merits.  
These pills are easy in action and are  
particularly effective in the cure of  
Constipation and Sick Headache. For  
Malaria and liver troubles they have  
been proved invaluable. They are  
guaranteed to be perfectly free from  
every deleterious substance and to be  
purely vegetable. They do not weaken  
by their action, but by giving tone to  
stomach and bowels greatly invigorate  
the system. Regular size 25c per box.  
Sold by W. F. Peter, druggist.

AFFLICTED.

Griffith in Faust.

Mr. John Griffith opened a week's en-  
gagement at the Hagan Opera House  
yesterday afternoon as Mephisto, in  
Goethe's "Faust." Mr. Griffith has been  
playing this same role for some years  
past, and his coming to St. Louis is al-  
ways attended by large audiences. The  
production of the tragedy is mounted  
this year in an unusually elaborate  
style. The electric duel, the descent  
into Hades, on the Brocken and the  
electric rose garden are some of the  
scenes that excite admiration. Mr.  
Griffith is supported this year by Miss  
Anna Boyle-Moore, who plays the part  
of Marguerite, and a capable company.  
—St. Louis Globe-Democrat, September  
7, 1896.

Persons who are troubled with indi-  
gestion will be interested in the expe-  
rience of Wm. H. Penn, chief clerk in the

Dr. Miles' Nervine Triumphs.

Excessive Nervousness from Childhood. La Grippe Brings on Heart Weakness.

REV. B. P. SEAREY, pastor M. E. church, Buchanan, Ga. writes, Dec. 10, 1895: "In childhood I was afflicted with excessive nervousness, which, almost developed into St. Vitus dance. I partially recovered, but at college it gradually grew worse. Close study aggravated the trouble; any unusual exertion caused trembling all over. In 1890 I had a severe attack of La Grippe which brought on heart weakness. I had been almost constantly under treatment for nervous troubles, and changed climates frequently without avail. Last February I began taking Dr. Miles' Restorative Nervine and Nerve and Liver Pills and since then I have been studying more and working harder than for years and the good effects have resulted seem to be permanent."

The senate passed a bill yesterday which provides that the killing of quail in the state shall cease for a period of two years.

SENATOR J. C. PRITCHARD of North Carolina, was re-elected to the United States senate yesterday. Pritchard is a republican but received the votes of eighteen populists on the final ballot.

The charge of Capt. Ritter against some of the Indianapolis police force is causing some anxiety among the wearers of the blue coats in the capital city. If wine rooms exists as he charges, and that too, with the knowledge of the police, there is some reason for the anxiety.

There should be no quibbling over a legislative apportionment bill. The matter should be carefully and thoughtfully considered by the proper committee and the result of their deliberations reported to both houses at an early day. The people want the very best apportionment law enacted that is possible.

The best summary of the most important events of the year 1896 that we have yet seen is that prepared by Hazlitt Alva Cappy and published in the January number of the Twentieth Century Monthly. Mr. Cappy is a native of Indiana and has many friends in this part of the state who will read this summary with much interest and profit.

The career of John Sherman, who will be President McKinley's secretary of state, proves conclusively that a man need not be President in order to be a maker of history of the highest importance. When March 4 comes Sherman will have been in public life continuously for forty-two years. He has been identified with all the great movements of the government within that period. He has never lacked ability to deal with hard problems.

There has not for some time been an administration confronted at its outset with so many serious problems as will meet the McKinley administration. Sufficient revenue must be raised to meet the expenses of the government. Our money system must be placed upon a safe and permanent basis. Our foreign affairs have been in a tangle all through the present administration, until Secretary Olney took charge of the state department. He has succeeded in unravelling some of the tangle and his work has been the redeeming feature in the foreign policy of the administration. See many of these questions, and some of them the most delicate will be left

INDIANA'S RESOURCES.

Of the natural wealth of Indiana not many of us have any just conception. How many of us, for instance, know that within its borders lie more than 7,000 square miles of workable coal fields, that the annual product of its stone quarries amounts to 22 million cubic feet, much of which, as the Portland cement, is of the finest quality for building purposes, and is shipped into other states, or that its supply of crude petroleum last year from its oil fields reached 4,700,000 barrels, or that its "gas belt" embraces 2,500 square miles? Its supply of clays suitable for almost every kind of clay manufacture is practically unlimited. The state geologist says that during 1896 over two thousand inquiries from almost every state in the Union were addressed to the natural resources of this commonwealth. Truly, Indiana is a great state!—Baptist Outlook.

PRESIDENT FISHER has a sensible communication in the Indianapolis Journal this morning relative to the discrimination against college graduates in the granting of life certificates to teach. There is no reason why the state normal graduates should be given a preference over the college graduates. A college diploma granted after four to six years of study in a reputable college should count for more than a certificate of graduation from the state Normal granted after two or three years of work there. More scholarship is what the schools of the state need, therefore the law should not discriminate against college men. The proposed law now before the legislature does so discriminate and therefore should not pass.

STUYVESANT FISH, president of the Illinois Central railroad is quoted as saying that the country was standing on pivot, and that was needed was for some man to start the investors and then the movement would become general. Continuing, he said: "There never was a time, I think, in the history of this country when everything was as ripe as at present for a long leap into business activity. Every factory and every enterprise which gives employment has rested and is now ready, yearning to begin anew another race, another effort. Thus it seems to me that when the great wheels of commercial activity have once more started there is no impediment no hindrance in the path of continual progress."

Steel and Iron Roosters Meet. CINCINNATI, Jan. 21.—The National Association of Carriage and Steel and Iron Roosters held their annual meeting here yesterday behind closed doors. Seventeen firms were represented by 25 delegates. The business related to maintaining perfect uniformity in rules of measurement and securing fairness in freight rates.

Colored Bishops in Session. NEW ORLEANS, Jan. 21.—The house of bishops of the African M. E. church met in this city yesterday for the purpose of reviewing their work, comparing notes and advising ways and means to extend their borders and work throughout the civilized world.

Lawrence university of Appleton, Wis., has celebrated the semicentennial of its founding.

Judge Showalter at Chicago appointed Dickinson McAllister receiver for the Metropolitan Elevator railway.

The Century Piano company of Minneapolis assigned, with assets of \$20,000; liabilities not stated. The failure was not a surprise.

In the New Hampshire legislature Jacob H. Gallinger was re-elected United States senator for a term of six years, beginning March 4 next.

An earthquake has occurred at Delvino, Turkish Bosphorus. Several villages, mostly inhabited by Christians, have been destroyed, and it is feared many lives were lost.

Richard Croker of New York denies that Louis Croker, who died suddenly in Washington on Monday, was his brother. "He bears no relationship whatever to me," said Mr. Croker.

There has been an enormous increase in the number of relief works in Bengal during the past week, and many people in search of employment are flocking to the British works from the central states.

Iron Mountain Cracked. An immense fissure in the earth has made its appearance on the top of Iron Mountain, between North Carolina and Tennessee, on the Bakersville road. This opening is 6 to 12 feet wide and runs along on the summit for the entire length of the mountain, which is several miles. It is supposed to have been caused by the recent rains.—St. Louis Globe-Democrat.

Killing of Quail and Grouse Prohibited For Two Years.

HALF DAY SESSIONS OF SOLONS.

Couple of Bills Ordered Engrossed in the House—Mr. Fairbanks' Address of Acceptance—Senate Passed Five Bills and Killed Senator Holler's Measure For Eligibility of Township Officers.

INDIANAPOLIS, Jan. 21.—Only half-day sessions were held by the two branches of the legislature Wednesday, and while the house devoted its time to the introduction of new bills and the discussion of a couple of measures on second reading, the senate passed the following bills and killed the bill of Senator Holler making township trustees and assessors eligible to re-election:

Senator Bobbly's bill prohibiting the killing of quail and grouse for two years. The measure absolutely prohibits the killing of these birds by any method during the next two years.

Senator Hogate's bill declaring it a felony for any person to assist an escaped convict in eluding the officers of law.

Senator Hogate's bill providing for the deposition to prove wills in the absence of attesting witnesses.

Senator Houghton's bill bringing the step relation within the pale of the incest law.

Senator Hubbell's bill providing that street and suburban railway corporations may acquire property for street railroad purposes.

The house passed Representative Wallrath's resolution sustaining the Chickamauga commission in its controversy with the national park commissioners over the position of the Ninth Indiana on Snodgrass hill. A couple of hours were then devoted to the reading of new bills. Among these was one by Mr. Nicholson providing for legal primary elections in cities. The next order taken up was that of bills on second reading and an hour was spent in discussing Mr. Remington's bill making it unlawful for a purchaser of wheat to measure in testing and grading the grains.

After a couple of minor amendments it was ordered engrossed. The bill of Mr. Canada providing that the road tax may be worked out from April 1 to Oct. 31 met with no opposition and was ordered engrossed. The house then adjourned for the joint session and the members devoted the afternoon to committee work.

SENATORIAL VOTE.

Mr. Fairbanks Election Verified in Joint Session—Applauded For His Address.

INDIANAPOLIS, Jan. 21.—All of the formalities necessary to the election of a United States senator were completed Wednesday in a joint session of the general assembly when the separate vote of the two branches was canvassed and the result declared. The house vote was: Fairbanks 52, Voorhees 42, Templeton 5; senate, Fairbanks 38, Voorhees 16, Templeton 1; total, 149. Mr. Fairbanks was escorted to the speaker's desk, his appearance being greeted with applause. His brief address was generously applauded by men of all parties, and at its conclusion an impromptu reception was held in the cloakroom.

Mr. Fairbanks' Address of Acceptance.

INDIANAPOLIS, Jan. 21.—In accepting his election to the United States senate Mr. Fairbanks spoke as follows to the joint session of the general assembly: Mr. President and Gentlemen of the Senate and House of Representatives of Indiana: I am not here to indulge in partisan speech, for such would be inappropriate in this presence, but to make acknowledgment of the high honor you have conferred upon me. From an overflowing heart I return you my profoundest gratitude. No honor lies beyond the trustfulness, the confidence of one's countrymen. I shall accept the commission of the state with a full appreciation of the great responsibility which its acceptance imposes and with a thorough consciousness of my own inadequacy. I shall enter the senate with one purpose, and that purpose is to serve the interests of my countrymen, irrespective of condition, to the best of my humble ability. My hope is to be able to aid in some small degree in the enactment of such laws as shall promote that sense of stability and security in our affairs which is essential to our progress and development. An era of prosperity to our country awaits us, and nothing but vicious laws and false policies can avert or retard it.

I favor upholding the dignity and honor of the government against all comers at any cost; yet I am opposed to any policy which shall tend to involve us in unnecessary international entanglements and possible war. Our people want peace for it is the mother of prosperity. One of the hopeful, reassuring incidents of the hour is the progress made toward the institution of a high tribunal of arbitration for the settlement of disputes between the great Anglo-Saxon powers. Such a step is in keeping with the demands of our highest and best interests; it is responsive to the imperative requirements of Christianity; it is the only way in which we can well lead the way. Our isolation is such, our resources are so limitless, the virtue and patriotism of our people are so acknowledged, that we have, as Blumhard said of the new German empire, no power to fear except the power of Almighty God. We need no frequent display of our willingness for war to convince the world of our prowess. I believe in commercial conquests—those conquests which shall bring the trophies of peace to the homes of our countrymen of low and high degree. I enter the senate as a Republican, a firm believer in the wisdom and soundness of Republican policies. I also believe with President Hayes that "the best way to serve his country best" is to "upon purely partisan questions I shall not vote for the approval of my Democratic friends, but with respect to the great majority of questions which are non-political I trust I may be able to win some share of their approbation."

For the distinguished occupant of the chair to which you have called me, I have nothing but sentiments of personal esteem and good will. Our differences are political, not personal; and I devoutly wish that health, happiness and many years may attend him.

Again permit me to thank you, and through you, to thank the great, generous constituencies which you represent, for this high honor.

A NATIONAL SAUCE.

SOMETHING ABOUT TOMATO CATCH-UP, SO POPULAR IN THIS COUNTRY.

How It is Made In One of New Jersey's Big Factories—Deep Secrets of the Business—A Bit of History About a Famous English Sauce.

New Jersey is the home of the tomato, and especially of the national sauce of America—tomato catchup. Here the tomato plant attains its highest state of perfection and produces a fruit so luscious, red and round as to justify the old English name of "love apple," to which the French still cling, calling it pomme d'amour. The tomato plant being a native of America, and the name coming from the Indian word "tunal," it is fitting that tomato catchup should be on every table in the land.

Widespread acres are devoted in Jersey exclusively to the culture of tomatoes, the choicest of which are reserved for tomato catchup. There are large factories in which catchup making is the chief industry. A random visit to one of these factories is enough to convince the owner of the most jaded palate that there are flavors yet worth tasting. Tomatoes are put up in nearly half a hundred inconceivable ways, but chiefly in catchup. The cooking is done on scientific principles. The original recipe for the catchup produced, unlike that of a certain famous English sauce, probably came "from an old woman in the country," but the product has been so changed and improved by experiment that the old woman herself would be forced to admit that she had not attained the highest rank in her art.

The best efforts of at least two skilled men in one of the factories have been devoted to improving the flavor of the catchup, but the result of their labors can be obtained by the general public only in the finished product. Their processes are carefully guarded secrets, kept most carefully locked up in their breasts. If both of them should die suddenly, the world would miss a distinctive product of the culinary art. The superintendent of the factory is one of these men. He probably knows as much about preserving fruits and making sauces as any man in the United States—and maybe more than any other man. He tells an interesting story about the famous English sauce before mentioned.

The makers of the sauce did an enormous business and kept their recipe a secret. Thieves tried to steal it, and other manufacturers imitated the flavor, the bottles, the labels and so forth, but nobody succeeded in making sauce that was just like it. The rival manufacturers succeeded in getting decisions in their favor allowing them to use the same name and even to have similar coats-of-arms and labels, but the name of the original makers was a guarantee of the peculiar quality of their sauce.

One day the foreman of the big works had a quarrel with the proprietors and withdrew. He began making and placing on the market a sauce so nearly like the original that connoisseurs could not tell them apart. The foreman kept this up awhile and then he suddenly retired from the business, closed his works, stopped making sauce and lived in luxury thereafter. Nobody has any positive evidence as to the manner in which he acquired his wealth so suddenly, but some people can guess.

"The secret of the tomato catchup made here is just as carefully guarded as that," said the superintendent. "We say we make catchup without the use of chemicals or coloring matter, and we do it. Salicylic acid is the standard chemical to prevent fermentation. If you can get just the right amount of that, perhaps it is not harmful, but the trouble is you have to use just a little too much to make sure that fermentation will not set in, and that surplus amount of salicylic acid hinders the natural fermentation of food in the stomach. It is as plain as that two and two make four."

"Then there is another thing—the coloring matter. These highly colored catchups that look so bright are really not as pleasing to the eye as catchup that retains the natural color of the tomato, and they certainly are not so healthful, for they contain carmine. Any one who knows what carmine is made of doesn't care to eat it."

So much for the maker's estimate of his own product. The factory is certainly neat and aromatic. A whiff of the air there after dinner is almost as good as a dash of tomato catchup. It requires 2,000 tons of tomatoes daily to supply the demand for the various preserves that are put up here. These are furnished largely by the farm in connection with the factory and partly by surrounding gardeners. The finest, reddest fruit is reserved for the catchup making. It must be unbruised. This is placed in a scalding machine, where, with two separate cold washings and a hot plunge bath, the skin is loosened. It then goes into a peculiar machine called the "eyclone," which separates the skins and seeds from the pulp. Big porcelain lined pumps take the pulp to a "sifter," where the coarser fibers are taken out, and nothing but the blood red fluid percolates through to be made into catchup. Even this refining process is not enough, for the water is separated from it, and the clear pulp is then placed in large, hermetically sealed cans, where it is cooked without foreign substances of any kind.

These cans are taken down throughout the year, as occasion demands, and the real process of making catchup from the essence of the tomato begins. The pulp goes through more sifting machines, that make it smooth, tin lined kettles, where it is boiled and seasoned. Country girls with fresh, rosy cheeks stir it up meanwhile, and the spices—what they are only two men know—are added. It is then tomato catchup, ready for the bottles, buckets and barrels that await it, for catchup is made by the barrel and shipped by the ton.—New York Tribune.

CHURCH NOTES.

Baptism at the Christian church at  
7:30 this evening. Address by Elder  
W. A. Young, of Indianapolis. All are  
cordially invited.

The meetings continue each evening  
at 7:30 at the Baptist church with great  
interest. Morning meetings are held  
every day at 9 o'clock.

Services are being held each evening  
this week at the A. M. E. church con-  
ducted by the pastor, Rev. W. M. Col-  
lins. Good interest is maintained and  
the presiding elder is expected to come  
to assist in the meetings.

Rev. F. H. Tormohlen came home  
last night from assisting Rev. Tone in  
the revival at Rockford. During the  
past ten days service there many sound  
conversions were had. The meeting is  
a grand success. Rev. Tormohlen is an  
industrious worker in the cause of his  
Master.

RAILROAD RUMBLINGS  
J. C. Coppin, of the E. & T. H., was a  
visitor here to-day.

Yesterday was a terribly disagreeable  
day on the train men.

G. M. Wader, of the the Kankakee  
Line, was a business visitor in the city  
today.

Conductor Tom Kelsa's caboose was  
demolished in the freight wreck at  
Mitchell yesterday.

Col. J. M. Ryan, of the Continental  
Line, after a business visit to the Blish  
brothers, returned last night to Louis-  
ville.

H. A. Truedley, who has been divi-  
sion freight agent of the E. & O. S. W. at  
Vincennes, Ind., has assumed duties of  
special agent of the company, a new  
position. His special work will be the  
development of industries on the line  
of the road.

B. & O. S. W. passenger train No. 1  
in charge of conductor Dave Shaner and  
engineer Frank Evans run from Milan,  
Ind., to Seymour, a distance of forty-five  
miles in fifty-six minutes, which in-  
cluded a stop of fourteen minutes at  
North Vernon.—Washington Gazette.

One of the new Class I engines on  
Pennsylvania on Saturday hauled a  
train of eight Pullman cars from New-  
ton Hamilton to Harrisburg, eighty  
three miles, in eighty minutes. On one  
stretch thirteen and one-tenth miles  
were covered in eleven minutes and  
one mile was made at a speed of eighty-  
two miles an hour. The Pennsylvania  
people claim that this run has never  
been beaten.

Captain W. W. Peabody, Vice Presi-  
dent and General Manager of the B. &  
O. S. W., traveled last year, in his pri-  
vate car, the Ohio, just 54,419 miles.  
The record was kept by C. A. Toney,  
who has been in the Captain's private  
office for eleven years, and who accom-  
panies him on his travels. He keeps a  
daily record of the car movements, and  
can show at just what point on the road  
the Captain was at any time during the  
past ten years while out on his car. In  
1889 the car, with the Captain, traveled  
59,850 miles; in 1890, 43,940 miles; in  
1891, 56,682 miles; in 1894, 60,311 miles;  
and 1895, 53,230 miles. "This record is  
hardly equalled by any railroad man in  
the west, and is equal to going twice  
around the world every year, and half  
way back again.

Your Boy Won't Live a Month.  
So Mr. Gilman Brown, of 34 Mill St.  
South Gardner, Mass., was told by the  
doctors. His son had lung trouble, fol-  
lowing Typhoid Malaria, and he spent  
three hundred and twenty-five dollars  
with doctors, who finally gave him up,  
saying: "Your boy won't live a month." He  
tried Dr. King's New Discovery and a  
few bottles restored him to health and  
enabled him to go to work a perfectly  
well man. He says he owes his present  
good health to use of Dr. King's New  
Discovery, and knows it to be the best  
in the world lung trouble. Trial bot-

The progressive ladies of Westfield  
Ind., issued a "Woman's Edition" of the  
Westfield News, bearing date of April  
3, 1896. The paper is filled with matter  
of interest to women, and we notice the  
following from a correspondent, which  
the editors printed, realizing that it  
treats upon a matter of vital importance  
to their sex: "The best remedy for  
croup, colds and bronchitis that I have  
been able to find is Chamberlain's Cough  
Remedy. For family use it has no equal.  
I gladly recommend it." 25 and 50

REUNITED.

John T. Deal Makes Peace With His Wife.

It will be remembered that only a  
few weeks ago word reached here that  
John T. Deal, of Clearspring, had beaten  
his wife in a most cruel manner. For  
several days it was feared that Mrs.  
Deal could not recover from her in-  
juries. She was taken to the home of  
her brother, Linc Conner, at Kurtz,  
where everything possible was done for  
her recovery. After several days she  
got better and for the past week has  
been able to get about more or less as  
usual.

In the meantime Deal was ar-  
rested and placed under bond of \$2000  
for his appearance in circuit court to  
answer the charges against him. The  
charges were serious which if proved he  
knew would likely go rather hard  
with him.

It is said that recently he has writ-  
ten several letters to his wife at Kurtz,  
who in the meantime had filed suit for  
divorce. Yesterday morning, however,  
when Mr. Conner was away from home,  
Deal drove up and took his wife to a  
buggy and drove over to Brownstown  
and in the afternoon they boarded the  
train, passing through here at 4 o'clock  
on their way to some peaceful spot  
where they can talk over their troubles  
of the past and meditate upon their  
happiness of the future.

That they should live together again  
is a source of much surprise to most  
every one acquainted with their  
troubles.

Free Pills.

Send your address to H. E. Bucklin  
& Co., Chicago, and get a free sample  
box of Dr. King's New Life Pills. A  
trial will convince you of their merits.  
These pills are easy in action and are  
particularly effective in the cure of  
Constipation and Sick Headache. For  
Malaria and liver troubles they have  
been proved invaluable. They are  
guaranteed to be perfectly free from  
every deleterious substance and to be  
purely vegetable. They do not weaken  
by their action, but by giving tone to  
stomach and bowels greatly invigorate  
the system. Regular size 25c per box.

Griffith in Faust.

Mr. John Griffith opened a week's en-  
gagement at the Hagan Opera House  
yesterday afternoon as Mephisto, in  
Goethe's "Faust." Mr. Griffith has been  
playing this same role for some years  
past, and his coming to St. Louis is al-  
ways attended by large audiences. The  
production of the tragedy is mounted  
this year in an unusually elaborate  
style. The electric duel, the descent  
into Hades, on the Brocken and the  
electric rose garden are some of the  
scenes that excite admiration. Mr.  
Griffith is supported this year by Miss  
Anna Boyle-Moore, who plays the part  
of Marguerite, and a capable company.
